Potential competing interests: No potential competing interests to declare.

Need a major revision.

1. Sample size calculation. How do you calculate the sample size needed for this study? Please add the method that you used to calculate the sample size.
2. Cohort study. The author mentions the COVID-19 cohort patients in this paper. May I know if all the participants that were recruited in this study were followed after the baseline?
3. May I know the intention to compare the prevalence of blood groups between COVID-19 patients and blood donors?
