Australian Cattle Dog

National Cancer Institute

Source

National Cancer Institute. *Australian Cattle Dog*. NCI Thesaurus. Code C53740.

The Australian Cattle Dog is a sturdy, compact, well-muscled and powerful working dog. The head is broad and slightly rounded between the widely set, moderately pointed pricked ears. It comes in blue or red speckled. The blue speckled is with or without black, blue or tan markings on the head with tan points. Height: 17-20 inches (43-51 cm.) Weight: 30-35 pounds (14-16 kg.)
