**Potential competing interests:** No potential competing interests to declare.

I am pleased to have a chance to review this manuscript. The review manuscript discusses Social media as a tool for oral health promotion: A systematic review; I feel it needs some crucial questions to be answered.

1. What is **a census sampling? Explain**
2. Objectives are not evident in Introduction. Please explain
3. Authors are needed to explain the sampling procedure.
4. Referring to methodology, a self-developed questionnaire was administered to the students, containing open and closed-ended questions. I am interested to know about the questionnaire do you develop it or you adopted some already developed questionnaire? Please explain.
5. The author did not mention sample size calculation.
6. The author did not mention statistical procedures applied in the methodology.
7. I am interested to see the questionnaire. Please add it as a supplementary file.
8. Explain the limitations of the study in detail.
