Hello , Thanks for writing the article, Your efforts are appreciated, tips for correction are provided as follows**In order to** scientifically improve the article, it is necessary to provide a theoretical model to explain the factors affecting the subject under investigation. Writing the article using the theoretical model and defining the effective variables in the form of an econometric model helps to provide more concrete experimental results that can be used in providing policy solutions. **In order to** strengthen the article, it is necessary that a part of the article be dedicated to experimental records and scientific articles regarding the subject in question.
