

# Review of: "Does Anger Management Among Prisoners Work? — A Review of Recent Meta-Analyses"

Manita Kusi

Potential competing interests: None

1. Methodological analysis seems to be very weak.
2. The research objectives and analysis done in the research are not very clear. It should give a clear vision from the reader's perspective too.
3. How did you select the articles for your meta-analysis? Clarify.
4. Are the included literatures enough to highlight the research gaps mentioned in the report? How can we assure that?
