# Systemic mastocytosis with an associated clonal hematologic non-mast cell lineage disease

INSERM

## Source

INSERM. (1999). *Orphanet: an online rare disease and orphan drug data base. Systemic mastocytosis with an associated clonal hematologic non-mast cell lineage disease. ORPHA:98849*

Systemic mastocytosis with an associated clonal hematological non-mast cell lineage disease is a form of systemic mastocytosis (SM) associated with malignancy (other than mast cell leukemia).
