Consumption of Beverage among Secondary and Intermediate Students in Riyadh Schools, Saudi Arabia: A Cross-Sectional Study

title: should be change. It does not match with your objective( which I assumed that it is related to hydration of the body)

Materials and Methods:

Kindly send your questionnaire

you have collected data in 2021 and you are publishing it in 2023? quit old data

Results:

where are your tables?

Kindly add tables in the manuscript

Its better to incorporate few graphical representation of results as well

I didn't find the objectives of the study. Kindly incorporate them in introduction.

I think you are focussed about dehydration. Did coffee consumption helps in hydration. I dont think so.

in your introduction you talked about global warming about summers i think coffee is not suitable beverage for this summers
