

Review of: "[Review Article] Green Strategies for the Synthesis of Quinolone Derivatives"

Majid Ghashang

Potential competing interests: No potential competing interests to declare.

Comments:

1. Please draw all schemes in the same format and size.
2. The subtitle "green chemistry" is not located suitably.
3. This is a review article and could not have a results and discussion section.
4. Please use more recently published articles.
5. English and grammar need revision.
