Establish Processes and Procedures to Verify REMS Safe Use Conditions

National Cancer Institute

Source

National Cancer Institute. *Establish Processes and Procedures to Verify REMS Safe Use Conditions*. NCI Thesaurus. Code C128503.

In the context of REMS, the healthcare provider or setting must establish a system to verify that safe use conditions required by the REMS are in place. For purposes of this definition, "safe use condition" refers to any activity that must be completed before the drug is dispensed (e.g., enrollment or completion of a lab test).
