

# Review of: "Determinants of Corporate Financial Performance in African Insurance Market"

Matteo Rossi<sup>1</sup>

<sup>1</sup> University of Sannio

Potential competing interests: No potential competing interests to declare.

The paper seems interesting.

Authors present a research concerning determinants of Corporate Financial Performance in the Insurance sector.

In my opinion the paper could be improved in different way:

- a. to enlarge the regional focus,
- b. to enlarge the numbers of dependent variables considered (in this moment they consider only ROA).

After this, in this moment the paper could be improved in:

ABSTRACT, it should be more focused,

LITERATURE REVIEW, there are important papers on this topic. I suggest you something

RESULTS, I suggest to create two different sub-section (a. descriptive analysis, b. inferential analysis)

CONCLUSIONS, I suggest to improve scientific and managerial implications
