Potential competing interests: No potential competing interests to declare.

The manuscript by [Maher M. Akl](#) & [Amr Ahmed](#) is well-written and can be published after some minor revision.

1. In this manuscript, vascular mimicry, an important factor in breast cancer invasion and metastasis, wasn't discussed.
Please add a section about vascular mimicry.
2. Did any study discuss the effect of celecoxib on BCSCs percentage previously?
