

Review of: "Deep Learning in Medical Image Registration: Introduction and Survey"

Subject More

Potential competing interests: No potential competing interests to declare.

1. The overall presentation of the article is good but theoretical in manner.
2. The survey paper should include some comparative result analysis of existing models.
3. The abstract must be concise and clear.
4. The conclusion must include the brief note about article.
5. Figures should have source cited.
