

Review of: "Honorific Conception of Philosophy and Exclusionism in Nigeria"

Edna Raquel Hogemann¹

¹ Universidade Federal do Rio de Janeiro

Potential competing interests: No potential competing interests to declare.

An important reflection on exclusion, from the point of view of the racial issues of those who objectively feel what exclusion is and what the effects of exclusion are.

A well-written and very current text, which places the discussion within the framework of modernity and the democratic question. Good bibliography. Ready to be published.
