Abstract

1. Add Objective in the abstract
- 2.

Introduction

1. Can objective 1 measured?
2. Rephrase Objective 4: To analyse sediment characteristic between Constructed and Reference Salt Marshes

Materials and methods

1. Study site: Add coordinate of the study location
2. Figure 1: Add map scale and North arrow in the map
3. Percent cover and vegetation diversity: add coverage formula

Vegetation biomass

1. add biomass calculation formula.
2. How can dry mass be recorded?

Result

Table 2

1. Add standard deviation along with the mean value

Figure 4

1. Elaboration for nMDS is too shallow, please explain more

Conclusion

1. Conclusion should be concise and avoid discussion
