Review of: "Greening the Bottom Line: Exploring the Impact of Sustainability Disclosure on Financial Performance"

Partson Paradza¹

1. University of the Witwatersrand, Johannesburg, South Africa

The research question is clear, and an appropriate methodology was used. Also, the aim of the study, which is to analyse the connection between sustainability disclosure quality and various financial indicators among mining companies listed on the Johannesburg Stock Exchange (JSE) in South Africa, is clear. However, the authors can improve on the measurement tools that are not in line with current standards
