Potential competing interests: No potential competing interests to declare.

1. Introduction, literature review and conclusion sections to be drawn properly.
2. Analysis section is too weak. Therefore the entire analysis has to be re-looked.
3. The authors need to add the urgency of this study.
4. For instance, many new studies show that accessibility of finance, improves employability (Agarwala et al., 2022; Maity & Sahu, 2021; Sahu et al., 2021). This line of argument and discussion is important for motivating this paper.
