Potential competing interests: No potential competing interests to declare.

An example of a successful doctoral thesis defence can, indeed, be beneficial to other doctoral candidates since the questions are general and applicable for contemplation by other candidates. Students can use them as guidelines and also have the opportunity to see examples of responses from one thesis defence. I believe this would help them reduce nervousness, focus on their work, and prepare more effectively for their oral presentations. I congratulate the author on the successful oral defence of his doctoral thesis and the idea to present it in the form of an article.
