Potential competing interests: No potential competing interests to declare.

The structure of the paper is clear, and the results help to fill the research gap in the employee-oriented built environment in urban green buildings.

Firstly, it is suggested to use cases to verify the model to verify further the applicability of the model proposed in this study.

Secondly, to make the overall coordination of the article, it is suggested to unify the font style of the chart.

Finally, it is necessary to supplement the current research gaps and future research directions.
