Potential competing interests: No potential competing interests to declare.

The originality of the paper needs to be further clarified. The novelty shall be justified by highlighting that the manuscript contains sufficient contributions to the new body of knowledge. Thus, the literature survey should be extended to 2023, and the reference numbers of the newly pertinent journal papers need to be more clearly introduced, one by one.

Moreover, you are requested to discuss how your approach differs from the cited references, then, reinforce your article's innovation, and to revise the Introduction and Conclusion of the article.
