

Review of: "Entrepreneurship education in the Tanzanian higher education institutes: The learning theories perspective"

Sorin-George Toma¹

¹ University of Bucharest

Potential competing interests: No potential competing interests to declare.

1. The TITLE seems to be appropriate chosen. However, it would be better to replace the word "institutes" with "institutions". The aim of the paper is rather vague presented.
2. The word "Tanzania" should be added to KEYWORDS. Also, it would be better to replace "higher learning institutions" with "higher education institutions".
3. The structure of a research paper is, in general, as follows: Introduction, Literature review, Methodology, Results and discussion, Conclusions.
4. The METHODOLOGY chapter is missing. The research hypotheses and the research methods are missing.
5. There are no graphs or tables within the paper.
6. The CONCLUSIONS should clearly emphasize the novelty and importance of the study. Also, they should emphasize the relationships with other studies.
7. The use of the English language should be improved-

The paper should be significantly improved.

Good luck !
