Dear authors,

Thank you very much for submitting your manuscript, well received.

Kindly find below my comments.

Figures/pictures must have a title and specific reference number based on the chapter and the number of them in the text. (ex. in Chapter 3. Figure 3.1 Site A, Collage Square...) - relevant amendments need to be done in the whole text.

In chapter 3, please explain analytically why you chose these specific criteria and why Site A, B, C fully cover these criteria.

Regarding the survey, please state if there is specific reason of the choice of this range of time during the day that the survey conducted.

In general, chapter 3 should be extended. Kindly also think the possibility to transfer some methodological info from Chapter 4 (Results) to Chapter 3.

Result should be simply clearly stated and presented with all necessary information in a one chapter.

Chapter 5. Conclusion, exists 2 times in the text with different data.

This should be changed. I can not understand if these are two different chapter or you are planning to merge them as one.

If there are different chapters, you need to amend both of them as they are very small and with the same title.

Finally, reference list is very poor and it should be expanded.

Thank you in advance.
