Irish Terrier

National Cancer Institute

Source

National Cancer Institute. *Irish Terrier*. NCI Thesaurus. Code C53719.

The Irish Terrier is a medium-sized, well-proportioned terrier with long whiskers, a bearded muzzle with powerful jaws, and bushy eyebrows. The ears are v-shaped and fold forward. The rough looking wiry outer jacket is lined with a softer undercoat. The coat is solid colored and may be red, golden, or wheaten. Height: about 18 inches (43 cm.)
Weight: 25-27 pounds (11-12 kg.)
