

Peer Review

Review of: "Human Exposure to Arsenic and Toxic Metals Through Meat Consumption in Africa: A Review of Scientific Literature"

Zaid Kh Khidhir¹

1. Animal Science, University of Sulaimani, Sulaymaniyah, Iraq

The manuscript is good,
but it focused on a limited area
and needs more details about the effect of heavy metals on people's health
and to study the sources of heavy metals.
More details about the effect of HM on different ages are needed
