Potential competing interests: No potential competing interests to declare.

The author did a good job on the article by reviewing several papers making the work robust.

The author can improve on this paper by adding recent work done, about 17 citations were recent out of 72 citations.

The author should also put into perspective the recent discoveries and probably stating limitations of the study.

The author should work on the technical terms used.

The author can also state how the databases or sourced that was used for the search of articles or journals.
