

# Review of: "[Review Article] A Comprehensive Overview on Pharmacological and Therapeutic Insights of Solanum nigrum Linn"

A.D. Soren

Potential competing interests: No potential competing interests to declare.

1. Insert space between numericals and units.
2. Italicise genus and species names in botanical descriptions.
3. Table 1 seems unnecessary since this is not the first description of the plant.
4. Detailed pharmacological and therapeutic potentials - authors have cited earlier studies as points. Please refer to other review papers and write accordingly, not as points.
