In this review article entitled "Coronavirus COVID-19: A Short Review on the Psychological Effects of Coronavirus, How It Disturbs Social Life, Its Mechanism to Affect the Central Nervous System, Possible Modes of Transmission, and the Smart Lockdown Policy of Pakistan," is well written. The title of the review must change. The title contains all subtitles of the review article. It seems not good. Choose a short and unique title. In the article, only the lockdown policy in Pakistan is discussed; it does not discuss the Psychological Effects of Coronavirus in Pakistan. Also, add figures related to these problems to make this review article more effective.
