1. The terms "Platelet Rich Fibrin Matrix" and "Plasma Rich Fibrin" are used interchangeably throughout the manuscript, including in the references. Please use the correct and consistent terminology as applicable and reference appropriately.
2. Please review the introduction section for any scientific inaccuracies or errors, and ensure all statements are supported by current evidence.
3. Kindly specify how the evaluation of skin quality and facial rejuvenation was performed and describe the standardization process used during assessment.
4. Clarify how the injection sites were standardized across patients, including the specific amount of PRF injected at each location. Please provide detailed methodology for each patient.
5. In the discussion section, please address and elaborately discuss the limitations and deficiencies of the study.
