Dear author

Thank you for your manuscript

- 1- Why have only two doses 10 and 20 mg/kg UA/OA been investigated?
- 2- Please considering previous similar liver protection research and compare with this research.
- 3- please explain mechanism of the effect UA/OA mixture on liver protection for anti TB drugs and reducing steatosis.
- 4- Please correct the diagram label of figure 1 and word spacing in ofRosmarinus.

By respect
