Stage II Testicular Cancer AJCC v8

National Cancer Institute

Source

National Cancer Institute. *Stage II Testicular Cancer AJCC v8*. NCI Thesaurus. Code C140233.

Stage II includes: Any pT/TX, N1-3, M0, SX. TX: Testicular cancer in which the primary tumor cannot be assessed. N1: Testicular cancer with metastasis with a lymph node mass 2 cm or smaller in greatest dimension and less than or equal to five nodes positive, none larger than 2 cm in greatest dimension. N2: Testicular cancer with metastasis with a lymph node mass larger than 2 cm but not larger than 5 cm in greatest dimension; or more than five nodes positive, none larger than 5 cm; or evidence of extranodal extension of tumor. N3: Testicular cancer with metastasis with a lymph node mass larger than 5 cm in greatest dimension. M0: Testicular cancer without evidence of distant metastasis. SX: Marker studies not available or not performed. (AJCC 8th ed.)
