Thanks to the authors for their important work; however, it needs more work.

First, it is recommended to adhere to one of the reporting guidelines for qualitative studies, especially in the methods section. In the results, there needs to be a table or figure to show the findings at a glance. Also, themes need to be reworded in order to be comprehensive and stand-alone.

The first title was clearer. Try to revise it.

The whole work needs a language edit.
