**Potential competing interests:** No potential competing interests to declare.

1. There is no relevance yet between the title and the abstract. Especially, Research Method and result. It is conclusion and recommendation.
2. The introduction does not state the condition of SMEs in Malaysia and the urgency of the need to write this paper in relation to the digital economy, and/or digitalization.
3. The preparation of research questions should be based on previous research gaps. The research question also does not include the word "Malaysia".
4. It seems like this paper is a conceptual paper, and there should be a method section that explains how the process of writing this conceptual paper.
5. I did not find the answer to the research question.
