Pharaoh Hound

National Cancer Institute

Source

National Cancer Institute. *Pharaoh Hound*. NCI Thesaurus. Code C53917.

The Pharaoh Hound is an athletic sight hound. The head is wedge-shaped and chiseled with large, erect ears and a powerful jaw. The flat skull and muzzle are long and slim. The coat is short and glossy in red or tan, often with white markings. It may also have a white tip on the tail, a white star on the chest, white on toes and/or a thin white line down the center of the face. Height: 21-25 inches (59-63 cm.) Weight: 45-55 pounds (20-25 kg.)
