

Review of: "Procurement Planning & the Rwanda Biomedical Centre (RBC)"

Rini S. Handayani

Potential competing interests: No potential competing interests to declare.

. Research Design : What kind of mixed methods were used? Was the qualitative and quantitative done simultaneously, or was the quantitative done first and then followed by qualitative to analyze its reasoning.

Qualitative Data Collection using Interview Guides : Please explain which topics used the interview guidelines and which didn't.

Quantitative Data Collection using Questionnaires : How many questions or topics are in each section for the structured questionnaire and unstructured questionnaire? Explain what topics were asked.

What methods were used in analyzing quantitative and qualitative data?

Findings : Please combine Table 1 and 2. Combine the tables until there are only 2-3 tables. Separate the qualitative and quantitative data.

Discussion of Findings : Explain how you achieved the first objective of this study? Is it from the qualitative, quantitative, or both? Also, address the other objectives.

Conclusions and Implications : It's too long; summarize it.

Limitations and Implications : It's too long; summarize it.

Policy Implications : It's too long; summarize it. Focus on the study objectives.
