

Review of: "Investigating the Levels of Obsession, Fear, and Self-Care Behaviors Related to COVID-19 in Fully Vaccinated and Partially Vaccinated Diabetic Patients"

ammar Riyad Mohi

Potential competing interests: No potential competing interests to declare.

to summarize paper review points:

1. Idea was clear but need more explanations (time -vaccine interval, cause of partial vaccines).
2. Author/s did not deepened on figures or charts to summarize the scope of work (pictures and images) however as a clinical facts evidence results appeared to be well designed in follow up or statistically significant values.
3. Processing of writing flow was valuable and simple with some gaps of related papers of COVID 19 breakthrough manner in result and discussion parts.

Best regards.
