Cryptococcus randhawii

National Cancer Institute

Source

National Cancer Institute. *Cryptococcus randhawii*. NCI Thesaurus. Code C114266.

An anamorphic yeast in the phylum Basidiomycota. This species is globose to ovoid shaped, assimilates glucose, galactose, xylose, arabinose, sucrose and maltose, does not produce hyphae or pseudohyphae, and utilizes nitrate. *C. randhawii* is originally isolated from the decaying wood samples in North-western India.
