Potential competing interests: No potential competing interests to declare.

1. Lack of Novelty.

2. The motivation of the study and the novelty of the study need to be incorporated.

3. Why author selects Grey Wolf Optimizer? Explain it in detail.

4. Author needs to re-read the article so that grammatical mistakes and typos are reduced because most of the sentences create confusion.

5. Author needs to mention references for existing methodologies in table 1.
