

Review of: "Design of a Smart Motorcycle Parking System based on Wireless Sensor Network (WSN) in a Multilevel Building at Universitas Pendidikan Indonesia"

Himani Pangasa

Potential competing interests: No potential competing interests to declare.

The thought is nice for making a system for motorcycle parking, but it will be good if the problem is analyzed deeply.

What is the reason behind motorcycle parking being done in an unauthorised way?

What is the scenario when someone comes for the first time, as their data will not be stored?

How are RFID tags provided to bike owners at first?
