REVIEW COMMENTS

The manuscript entitled "The Influence of Hot Extrusion on the Mechanical and Wear Properties of an Al6063 Metal Matrix Composite Reinforced With Silicon Carbide Particulates" presented by the authors is good work, but some modifications are required to improve the quality and standard of the article. So, the authors must pay the following attentions:

Comments to Author(s):

Changes which must be made before publication:.

1. The discussion part is not clear. Make it more technically sound.
2. There are some wrong choices of words, grammatical errors, and an incoherent sentence structure. Please check the manuscript.
3. Conclusion: It needs to be revised and reduced to one paragraph along with subpoints.

There are many ups and downs while developing the manuscript, which have to be fine-tuned during the revised version.
