

# Review of: "Pros and Cons of Key Escrow Agreements in Cloud"

Dr. Dheresh Soni

Potential competing interests: No potential competing interests to declare.

1. Title is not up to mark, modification is required
2. Literature review is missing.
3. Paper structure is not correct. Restructure paper like literature review, method discussion, methodology/Implementation, Result discussion, Conclusion and future work.
4. Paper flow is not proper. What is aim of research and what is/are your problem statement, Correction required.
5. References are not properly cited in paper.
6. Equation is copied as image. Write equations.
7. Methodology section require better representation and analytical novelty
8. Result section is missing. How conclusion is made without any implementation, working equations and outcomes that proposed method can reduce the probability of losing access.
9. To support result, comparison is required or some outcomes are required.
10. Future work is not discussed.
11. Reference used are very old, Use newer reference and newer work in the proposed field.
