The topic is interesting and may contribute to the gap in literature. Please see the comments and suggestions below:

1. Kindly arrange and organize the abstract: Objective, Method, Main findings, conclusion, and recommendations.
2. Add keywords after the abstract.
3. Please use APA format for the citation. Arrange in alphabetical order.
4. Add the purpose and novelty of the study in the introduction part.
5. For methodology, kindly describe the following: research design, participants/respondents and sampling technique, instrument (validity and reliability), data analysis, data gathering and ethical consideration.
6. Add supporting or contradicting literatures on your claims of your paper.
