

Review of: "Stability Analysis for Linear Uncertain Switched Systems in Infinite-time Domain"

Xiaozeng Xu

Potential competing interests: The author(s) declared that no potential competing interests exist.

This paper consider an uncertain switched system expressed as a series of uncertain differential equations. The idea is interesting. Some comments should be considered before the paper is accepted.

1. References in the Introduction should be numbered from 1.
2. The research motivation of this paper should be clearly stated.
3. The simulation section should include a full discussion of the results.
