

Review of: "Clowns, Clown Doctors, and Coulrophobia: A Scoping Review"

Georgios Iatrakis¹

¹ University of West Attica

Potential competing interests: No potential competing interests to declare.

This is an interesting paper. However, it is already known that the multiple options for clown appearance can produce negative feelings or a sense of direct threat. Thus, please reconstruct your conclusions not only as “deserving further research,” but as a clear conclusion useful for the readers.
