Review of: "The Potential of Conversational AI for Mental Health Support in UK Armed Forces Personnel and Veterans: A Mixed-Methods Health Needs Assessment and Feasibility Study"

Asaad Babker[1]

1. Gulf Medical University, United Arab Emirates

Thank you for your thoughtful response to my suggestions. I appreciate the effort you've made to address the points I raised, especially your insights on user acceptance and the importance of aligning strategic efforts. Your explanations and the direction for future research provide valuable clarity.
