Miracle Mouthwash Plus Hydrocortisone

National Cancer Institute

Source

National Cancer Institute. *Miracle Mouthwash Plus Hydrocortisone*. NCI Thesaurus. Code C118293.

An oral rinse containing miracle mouthwash and the corticosteroid hydrocortisone, with potential anti-mucositis activity. Upon rinsing with this mouthwash, the ingredients in the miracle mouthwash may provide analgesia; the hydrocortisone modulates the production of pro-inflammatory cytokines which may prevent inflammation of the oral mucosa, and reduce chemotherapy- and/or radiation-induced oral mucositis.
