# Montreal Cognitive Assessment Delayed Recall Test

National Cancer Institute

## Source

National Cancer Institute. *Montreal Cognitive Assessment Delayed Recall Test*. NCI Thesaurus. Code C162717.

Five words are read, the test-taker is asked to repeat them, they are read again and asked to repeat again. After completing other tasks, the person is asked to repeat each of the five words again and given a cue of the category that the word belongs to if they are not able to recall them without the cue.
