Borderline Ovarian Serous Tumor/Atypical Proliferative Ovarian Serous Tumor

National Cancer Institute

Source

National Cancer Institute. *Borderline Ovarian Serous Tumor/Atypical Proliferative Ovarian Serous Tumor*. NCI Thesaurus. Code C122584.

A non-invasive serous neoplasm that arises from the ovary and shows greater cellular proliferation and cytologic atypia as compared to benign ovarian serous tumors, but less as compared to low-grade ovarian serous carcinoma.
