## Abstract

## Results section

Line 7: .... those who tested for Covid-19 vaccines [aOR:.....

I suppose you meant those who tested for Covid-19 and not the Covid-19 vaccine

Currency to be changed or at least put to a universally easy-to-apprehend currency

In the manuscript, I suggest you correct Covid-19 to Covid-19

I was unable to identify the rationale of this study in the Introduction section

Methodology well explained

Discussion doesn't fully explain most of the study findings; kindly re-discuss or change topic
