

# Review of: "Mycetoma in Animals a Review of Cases Reported From 1925-2022; Epidemiology and Management Strategies"

Virginia Vanzzini-Zago<sup>1</sup>

<sup>1</sup> Asociacion Para Evitar la Ceguera en México Hospital Dr. Luis Sánchez Bulnes

Potential competing interests: No potential competing interests to declare. I have not conflict of interest

I suggest a review of the microorganism names; there are some with the first name added to the species name. I suggest too that we make table 1 wider, and after that, only add comments over the relevant facts in order to make the review shorter.

In table 1, the dates in the bibliography number may help to understand the treatment possibilities through the years.
