This manuscript describes a descriptive approach to factors affecting safety in electricity distributor companies in Nigeria.

Collected data are rich and seem valuable. Clarification of quantitative aspects is encouraged as described below.

Question or comment

The study investigated the factors affecting the "Health and Safety Programme". How was this "Health and Safety Programme" quantified? Was it existing or non-existing? Adding an explanation is encouraged.

Non-binding comment:

As a next step, structural equation modeling is encouraged to determine the important factors.
