Prostatic Intraepithelial Neoplasia

National Cancer Institute

Source

National Cancer Institute. *Prostatic Intraepithelial Neoplasia*. NCI Thesaurus. Code C4064.

A neoplastic proliferation of the epithelial cells that line the acini and the ducts of the prostate gland. The neoplastic epithelial cells are confined within the acini and the ducts and they do not invade the surrounding prostatic stroma. Morphologically, it is classified as low or high grade.
